GAMING ABSTRACT

1984

A REPORT OF COMBINED FINANCIAL INFORMATION REGARDING NEVADA GAMING LICENSEES GROSSING $1 MILLION OR MORE IN GAMING REVENUE DURING THE FISCAL YEAR ENDED JUNE 30, 1984

Published
January 1985

INTRODUCTION

Regular users of the NEVADA GAMING ABSTRACT will notice a new look to the 1984 edition. The book is now printed in a vertical format, and its cover no longer carries a map of the State. The tables have been substantially rearranged, although they include, with very few exceptions, the same information published in past years.

Section I now reports all the casinos which grossed at least $1,000,000 in gaming revenue during the year, segregated by geographical areas within the State. In previous Abstracts this was Section III. The information is presented in the following sequence:

Combined Balance Sheet
Combined Income Statement
Departmental Income Statements
  Casino Department
  Rooms Department
  Food Department
  Beverage Department
  Other Income
Ratios and other statistical information

Section II is the same as the old Section II, and further divides the geographical areas (Downtown Las Vegas, the Las Vegas Strip and the Reno/Sparks area) into smaller groups based on gross gaming revenue.

Section III reports the Hotel/Casino Complex facilities and the Publicly Owned Casinos, both of which groups previously were Section I.

Other significant changes are:

- Average-win-per-unit with its median and quartile range, as well as the mix of games and devices, is not included in this Abstract, but has been published as a separate document for the fiscal year ended June 30, 1984. Beginning with fiscal year 1985 (7/1/84 through 6/30/85) this information will be published quarterly with the September, December, March and June monthly reports. The fiscal 1984 compilation, and the monthly reports can be obtained by contacting the State Gaming Control Board in Carson City or Las Vegas.

- The schedule of employment has been greatly simplified and now appears immediately after the schedule of OTHER INCOME in each group of casinos.

- COMPLIMENTARY EXPENSES are charged to the appropriate department.

Introduction continued-

- o PAYROLL TAXES and EMPLOYEE BENEFITS are listed separately.

- o ENERGY EXPENSE (electricity, gas, etc.) has been removed from the UTILITIES account and shown separately.

TERMINOLOGY

Nearly all the information in this report is accounting data, reported by casino accountants, for use by gaming agency accountants. Consequently a considerable amount of bookkeeping and accounting terminology has been used throughout the report.

Since even among accountants some terms may have different meanings, and in some instances certain terms may have special definitions as used here, we are defining the more commonly used words at the start of the report.

Also included in this section are terms other than accounting terms whose meanings might not be entirely clear without further explanation.

CAPITAL - As used in this Abstract, "capital" is equivalent to total assets less total liabilities.

CASINO - The term "casino" is defined broadly in Regulation 1 to mean any room or rooms in which gaming is conducted. In this report we define it more narrowly to mean only those establishments in which gaming is the primary source of revenue.

JUNKETS - According to regulations of the Nevada Gaming Commission and the State Gaming Control Board, a "junket" is an arrangement whereby a junket representative brings a group of eight or more people into Nevada for the purpose of gambling at a specific casino. All or part of the gamblers' transportation, food and lodging expenses are borne by the casino.

MEDIAN - "Median" is the value at the middle of a group of values, such that half of the values are greater than the median and half are less than the median.

QUARTILE - "Quartile" is used in conjunction with the median, and is a further division of the groups of values. To arrive at the median the group was arranged in descending order and divided into two halves. The two halves are each divided into two equal parts, and the dividing points are the "quartiles". The one in the upper half is the upper quartile and the one in the lower half is the lower quartile.

PUBLICLY OWNED CASINO OPERATIONS

Twenty-eight casinos grossing $10 million or more from gaming are owned by the following fourteen publicly held corporations:

AVERAGE-WIN-PER-UNIT

with Median and Upper and Lower Quartiles

INTRODUCTION

This report includes the "mix" of games and devices, the gaming revenue produced by these games and devices, and "average-win-per-unit" (AWPU) for the year ended June 30, 1984; information which, in prior years was included in the Board's annual NEVADA GAMING ABSTRACT. However, with the goal of providing the gaming industry and other interested users with more current data, these statistics are now included in the September, December, March and June Monthly Report of the Gaming Control Board.

Since "mix" and "AWPU" were not added to the monthly report until September 1984, and also are not included in the 1984 NEVADA GAMING ABSTRACT, this one-time-only report is to be used as a supplement to the 1984 ABSTRACT.
